

# Optical Fiber Ribbon Fan-out Pigtail

ACCELINK TECHNOLOGIES CO.,LTD.

Optical Fiber Ribbon Fan-out Pigtail can separate and protect fibers in a multi-core optical fiber ribbon (such as 12 cores) through a special fan-out splitter, so as to connect each fiber through a connector to make the fibers connection on ODF.

## Features

- Low insertion loss, high return loss
- Good repeatability and interchangeability

## Applications

- Optical distributing frame (ODF)
- Optical fiber connection box
