1. SCOPE

1.1 PURPOSE

The purpose of this document is to specify the electro-optical performance and dimensions of superluminescent light emitting diode (SLED) Butterfly.

1.2 RESPONSIBILITY

EXALOS is responsible for establishing, implementing and maintaining this procedure. The Quality representative shall ensure that a timely Engineering Change Notice (ECN) is issued in accordance with EXALOS procedure for any changes.

2. REFERENCE DOCUMENT

- EXS-WI-0001 Visual Inspection Criteria SLED Chip on Submount Procedure
- MIL STD 883 C method.
- Bellcore GR-468-CORE.

3. ELECTRO-OPTICAL PERFORMANCE \((T_{SLED} = 20^\circ C)\)

</table>

Measurement conditions:
- \(I_{op} = I_{op,max}\)
- Monitor PD bias voltage: 0 Volts

Input resistance of the Monitor PD current measurement circuit 10 Ohm
4. ABSOLUTE MAXIMUM RATINGS

Stresses beyond the absolute maximum ratings may cause permanent damage to the device. Exposure to absolute maximum rating conditions for extended periods may affect device reliability.

5. SCREENING

The produced 1270nm SLED Module is required to meet all operating conditions specified in Table 3, Electro-Optical Performance Specifications after being subjected to the following screening tests.

<table>
<thead>
<tr>

6. PACKAGE DIMENSIONS [mm]

Tolerances:
- \( X \pm 0.25 \text{ mm} \)
- \( XX \pm 0.05 \text{ mm} \)

### Part Description
- **SM Fibre SMF-28, 9/125 \( \mu \text{m} \)**
- **Tight buffer secondary coating 900 \( \mu \text{m} \)**
- **Fiber pigtail length [min] 1 m**
- **Optical connector FC/APC Narrow Key (2.0mm)**

<tr>
<td>Optical connector</td>
<td>FC/APC Narrow Key (2.0mm)</td>
</tr>
</tbody>
</table>
8. IMPORTANT NOTES

1. Avoid electrostatic discharges, which may destroy the SLED.
2. Never use the bare die without heat sinking.
3. Adequate eye protection against laser radiation should be used while handling and operating the module.
4. EXALOS declines any responsibility if the device is used in applications where human life may be endangered.
5. Back reflections may influence the output power and spectral characteristics of the SLED. The use of optical isolators and/or angled connectors is recommended. Back reflections of less than -30dB are recommended.

9. ORDERING INFORMATION

Please use the following code system to order products from EXALOS:

Standard product: The Standard product is ESL2720-2113.
